Offshore Wind test- en demonstratiesite Maasvlakte 2

OFFSHORE

www.portofrotterdam.com/offshoreinnovation
Test & Demonstration Area Port of Rotterdam - Maasvlakte 2

The port of Rotterdam is spot on for the development of innovations in the field of offshore wind. The large scale of the Maasvlakte 2 area allows for testing onshore with offshore conditions, saving costs and allowing for more experimentation. Discover the facilities, locations and start to see the possibilities.

A photograph of a white, modern bathtub in a rustic wooden bathroom. Water is running from a central faucet into the tub. The walls are made of horizontal wooden planks, and a small black metal basket sits on a stone ledge behind the tub.

De cashbehoefte lijkt op een badkuip, waar stap jij in?

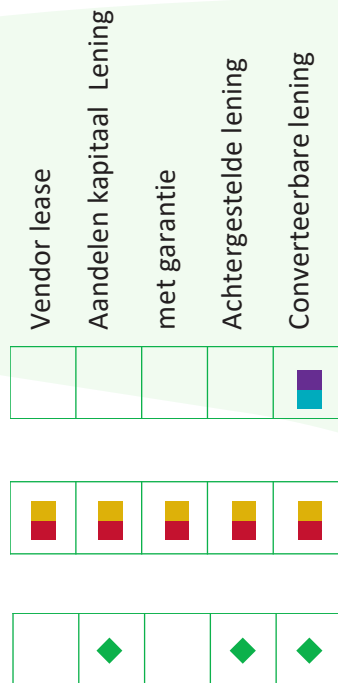

InnovationQuarter ondersteunt in alle fasen
